### APPLICATIONS DETERMINED (since 14<sup>th</sup> June 2023)

**Proposal:** Repair to decayed timber frame and sole plate on East elevation. The work will include removing minimal original materials but where required rotten timbers or parts thereof will be replaced with new timber. Infill panels will be removed where required and rebuilt with existing materials. (RETROSPECTIVE) approval for the fence that has been erected in place of a large hedge which had to be removed as it had been neglected over a number of years. The boundary between the property and the adjacent footpath was already 6ft timber fence for half the length, which had partially rotted and was no longer stable. We therefore replaced this section and also the part of the boundary which was previously hedge. We have planted greenery alongside the fence on the side of the property.
